

PEABODY MUSEUM OF NATURAL HISTORY

TRUSTEES

PROFESSOR JAMES D. DANA, PH.D., LL.D., *Chairman*
HIS EXCELLENCY CHARLES R. INGERSOLL, LL.D., *ex officio*
THE HONORABLE ROBERT C. WINTHROP, LL.D.
PROFESSOR BENJAMIN SILLIMAN, M.D.
PROFESSOR GEORGE J. BRUSH, M.A., *Treasurer*
PROFESSOR OTHNIEL C. MARSH, M.A.
GEORGE PEABODY WETMORE, M.A.

CURATORS

OTHNIEL C. MARSH, M.A., *Curator of the Geological Cabinet*
ADDISON E. VERRILL, M.A., *Curator of the Zoological Cabinet*
EDWARD S. DANA, PH.D., *Curator of the Mineralogical Cabinet*

The gift of the Founder, GEORGE PEABODY, of London, was committed to the Board of Trustees, in October, 1866, "to found and maintain a Museum of Natural History, especially in the departments of Zoology, Geology, and Mineralogy, in connection with Yale College." Of the entire gift (\$150,000), \$100,000 was devoted by the donor to the erection, on land given for the purpose by the President and Fellows of the College, of a fire-proof building, planned with especial reference to subsequent enlargement. Of the remainder of the gift, the sum of \$20,000 is set apart as a reserve fund for the completion of the building, and the income of \$30,000 is available for the care of the Museum and the increase of its collections.

By the accumulations from investment of the original building-fund, the first wing of the Museum is now completed, at a cost of about \$140,000, or, with the cases, \$175,000.

The basement will be used for exhibiting the collection of fossil footprints from the Connecticut valley, and for work and storerooms. The first story contains the Mineral Cabinet, and rooms for instruction in Mineralogy, as well as the general lecture room. The second story is entirely devoted to Geology, and the third to Zoology. In the fourth story the large south room will be used for the collection in Archæology and Ethnology, and the remainder for storerooms.

So far as the collections are arranged, the Museum is open to students and the public every day in term-time.

LIBRARIES

THE COLLEGE LIBRARY numbers about 80,000 volumes, besides many thousand unbound pamphlets. It is designed for the use of the College officers, resident graduates, and the students of the various departments. Other persons may have the privilege of consulting the Library and drawing books, by permission of the Library Committee. The Library is open daily in term-time from 9½ A. M. to 1 P. M., and from 2½ to 5 P. M. (or, during the winter months, to 4½ P. M.)

In the same building is the LINONIAN AND BROTHERS LIBRARY, designed primarily for the use of the undergraduate students, and containing about 20,000 volumes. This library is open daily, from 1½ to 3 P. M.

The Theological, Law, Medical, and Scientific Schools have each a special Library, accessible to the students of those schools.

The Library of the AMERICAN ORIENTAL SOCIETY, numbering about 3,500 printed books and manuscripts, is kept in the College Library building.

Design.

The design of this Institution is two-fold :

1st. To prepare young men for College by a careful training in the Classical Languages, and in the Mathematics.

In doing this, thoroughness and accuracy will be constantly kept in view, and such a degree of proficiency in the studies of earlier College course as will be of real utility in the direction of mental culture and development. The student will be required not only to translate the Latin and Greek Languages into English, but to observe closely the grammatical points, to apply the rules of syntax, and to derive the words of our own language from these ancient sources.

In the other studies of the Classical Course such methods of study and recitation will be insisted on as are calculated to produce sound scholarship. Attention will be given to fundamental branches, such as Spelling, Reading, Composition and Declamation.

2d. To provide for the Education of Teachers. In this, the Normal or English Department, such branches will be taught as are required in Common Schools, and such others as are essential to a good English education. Not less attention will be bestowed upon this department than upon the other, and no pains will be spared to render it worthy of increased public patronage. It is most earnestly desired that those who enter to prosecute these studies, would allow themselves sufficient time to derive advantages which may be creditable to them and to us. Six weeks at a Normal School, unless supplementary to a previous course of very considerable thoroughness, will be of little account.

TUITION, PER TERM.

<i>Regular Classical Course,</i>	=		\$15.00
<i>Primary Normal,</i>	=	=	13.00
<i>Intermediate Normal,</i>	=		15.00
<i>Higher Normal,</i>	=	=	18.00
<i>Commercial,</i>	=	=	15.00
<i>Contingent Fee,</i>	=	=	50

An extra charge of \$8.00 will be made for German and French. Also, extra charges for Music.

No student will be received for a less time than a full term, and no deduction will be made except for protracted sickness. Tuition payable in advance.

EXPENSES.

Boarding in private families, including furnished rooms, can be had at \$4.00 to \$4.50 per week. Boarding in club, for which successful arrangements have been made, ranges from \$2.00 to \$2.50 per week, not including room, which can be rented at a cost of \$10.00 to \$15.00 per term. Self-boarding, which is the cheapest plan, and for which there are here unusual facilities, has often been adopted. Washing, per month, \$1.00. Fuel and Light, \$1.50 per month. Expenses of Room, Fuel and Light can be shared with a room-mate.

The necessary expenses of a term can be brought down to about \$75.00, exclusive of clothing and traveling expenses. Parents are earnestly requested not to furnish their children with money much in excess of this estimate, as it exposes them to a variety of temptations unfriendly to study.

BUILDINGS.

The Academy occupies buildings formerly appropriated to the uses of Jefferson College. The rooms are large and commodious, furnishing rare advantages in this respect for an academy.

LITERARY SOCIETY.

The Sumnerian Literary Society, the exercises of which consist of essays, declamations, debates, &c., has been successfully conducted by the students. Although attendance is not compulsory, most of the students have availed themselves of its opportunities for improvement.

APPARATUS.

A portion of the philosophical apparatus belonging to Jefferson College has been appropriated to the Academy. This, through the efforts of Prof. RAY, has been put in good working order.

RELIGIOUS WORSHIP.

The exercises of each day are opened with reading of the scriptures, and prayer in "Senior Hall," at which time all the students are required to be present. Regular attendance at some place of religious worship is also required.

The teachers will endeavor to note the habits of pupils, not confining their attention to the class-room, but desirous of exercising a judicious guardianship over those who, at their impressive age, are committed to their care.

LOCATION.

Canonsburg, where the Academy is located, is in the Chartier's Valley, eighteen miles South-west of Pittsburgh, in a beautiful and healthful country. Its inhabitants are eminent for their morality, their observance of the Sabbath, their attention to religion and its ordinances, their hospitality, and the interest they have ever taken in those who are pursuing their education in their midst. The place is suitable for study, being removed from the amusements and distractions of larger towns. It presents but few temptations to the formation of vicious habits from surrounding influences.

It is now in easy communication with Pittsburgh and Washington, by means of the Chartiers Valley Rail Road.
